

APPLICATION FOR THE 'TOUR DE MANC' (TdM) CHARITABLE TRUST FUND

TdM Charitable Trust Fund has been created to use "Cycling as a Force for Good" in Greater Manchester and surrounding areas. The Trustees will consider applications for funding from registered Charities working to the benefit of people within Greater Manchester and surrounding areas. Funding is determined on a year by year basis at the Board's Autumn meeting (deadline available on our website). As such, we seek engagement from the charities we fund to help build the cycling community of Manchester through providing volunteers at cycling events and encouraging cyclists to participate in fundraising for your organisation. TdM Charitable Trust is independent of TdM LTD which is a not for profit company of which all profits are dispersed independently by the trustees of the Charitable Trust. Tour de Manc trustees will review your application and get in touch with you via the contact information provided on this form.

Your organisation

Name(s) of organisation

Governance structure (e.g. trustees board) and status (give reg. number/s)

Board members (names & contact details)

Policies -
